

Foretravel MOTORHOME

SPECIFICATIONS

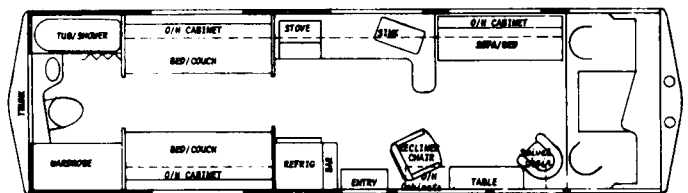

The **Foretravel** motorhome is available in many lengths. Here we show the most typical, and, we think, the best, interior arrangement for maximum usage and livability. However, one of the many advantages we offer is the ability to provide flexible interior design to meet special needs. This fact will also prove attractive to companies and corporations who may have need of a traveling laboratory, a sales showcase to drive from market to market, or a mobile hospitality center set up for conventions and sales meeting. The limit is almost with your imagination. Whatever the need . . . go advanced, go **Foretravel** ; what a way to go!
