

# Grand Villa

*A New American Classic  
by Foretravel*

*There's  
a new  
addition  
to the  
Foretravel  
family.*

We named her the Grand Villa because it's just what the name implies. Grand, because of her stature. Grand Villa because she's a home as luxurious as they come.

The exciting new symmetry of her design only hints at the beauty of her interior appointments—real wood cabinetry, plush carpeting, designer fabrics and wallcoverings—and, of course, the Grand Villa has every modern convenience you could wish for in a motorhome.

The Grand Villa's state-of-the-art aerodynamics are a direct result of the engineering innovations that Foretravel has developed over our many years of motorhome manufacturing. Gas or diesel engines power the new Grand Villa on a choice of chassis options.
